DETAILED ACTION

Claims 1-27 are pending in this application.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-22 drawn to compounds of formula I, (variously classified in 544, 546, 549, etc.)

Group II. Claims 23-27 drawn to compounds of formula I (variously classified in 544, 548, 549, etc.)

The above groups are identified as general areas. Accordingly, as groups they are independent or distinct. Not to restrict the application would impose a severe burden on the examination of this application.

The above groups themselves are inclusive of patentably distinct subject matter. Accordingly, along with the election of one of the above groups the following action is also taken.

Claims 1-27 are generic to a plurality of disclosed patentably distinct species comprising for example, the compound designated as (1) Compound 10, page 32 (2) Compound 59, page 37 (3) Compound 201, page 39, etc. . . Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 1626

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species, a generic concept inclusive of the elected species will be identified by the examiner for examination along with the elected species.

In response to the restriction requirement applicants attorney, Mrs. Lisa Dixon, has elected Group I, claims 1-22, and the species of compound 59, page 37, with traverse via telephone on May 9, 2001.

The following generic concept as depicted in formula (I) of claim 1 is identified for examination along with the elected embodiment, wherein A is

in (G)_x, x is 1 and G is selected from H, R⁷ or C₁-C₄ alkyl (in all other instances, x is as defined); D is -C₁-C₆ alkyl-C₃-C₆cycloalkyl-, wherein the cycloalkyl portion is optionally substituted as defined; D', E, n, R¹-R⁹, R³³, Q, M, M', W, X, Y, Z are as defined, and n, R¹-R⁹, Q, M, M', W, X, Y, Y', Z are commensurate in scope with the elected embodiment for A (see the structure for A above), D, and G. The remaining subject matter of claims 1-22 and the subject matter of claims 23-27 stands withdrawn from

Art Unit: 1626

further consideration under 37 CFR 1.142(b) as constituting other patentably distinct inventions.

The withdrawn subject matter of claims 1-22 properly restricted as said subject matter differs in structure and element from the elected subject matter so as to be patentably distinct therefrom, i.e. a reference which anticipated but the elected subject matter would not even render obvious the withdrawn subject matter and the fields of search are not co-extensive.

Accordingly, the claims are drawn to more than a single invention and restriction as has been required is proper 37 CFR 1.142 (a).

Claims 1-22 are objected to as containing non-elected subject matter. This objection may be overcome by limiting the claims to the elected subject matter identified supra.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, page 376, between the last two depicted structures, insert --or--, and after the last structure, insert --.--.

Regarding claim 21, the phrase "such as" renders the claim indefinite on page 383, lines 11, 13, 15, 18, 21, 25, and on page 384, lines 1, 4, 5, 6, 8, 13, 15, and 18,

Art Unit: 1626

because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).
